

Hummer Wind Turbines For Ships

As the cruiser sailing all over the world, [wind turbine](#) becomes a critical component. Because of the narrowness and high [energy](#) consumption on the ships, our products will be the best solution of the energy that you need. Used by thousands of people, our products is one of the most popular [wind turbines](#) in the market. Trusted by sailors and supported by global distribution network, our products have a promising market. It is easy in installation and free in maintenance with years of free maintenance [service](#).

It is also fit for boat and you just need to mount it on the stern with a tower kit or on backstay as the picture shows.
